BCACACS 202

**Second Semester B.C.A. Degree Examination, June/July 2026
(SEP) (2024-2025 Batch Onwards)
OBJECT ORIENTED PROGRAMMING USING JAVA**

Time : 3 Hours

Max. Marks : 80

Note : Answer any ten questions from Part – A and any one full question from each Unit in Part – B.

PART – A

1. a) What is polymorphism ? Give example. (10×2=20)
- b) What is Java Bytecode ?
- c) What is stream ? List different types of streams in Java.
- d) What are constructors ? What is the purpose of a constructor ?
- e) What is the use of 'this' keyword in Java ?
- f) What is vector ? How it is different from array ?
- g) What is the purpose of super() ?
- h) What are abstract classes ?
- i) What is the purpose of final class ?
- j) List different states of a thread.
- k) What is an Applet ?
- l) List the key features of a swing GUI.

P.T.O.

2. a) List and explain any four different features of Java.
b) Explain the process of reading a character from the keyboard with suitable example.
c) Explain switch statement with syntax and example. (5+5+5)
3. a) Explain various features of OOP.
b) Explain the java program structure with example.
c) Explain different forms of if statement with syntax and example. (5+5+5)

UNIT – II

4. a) What are arrays ? Explain how to declare instantiate initialize and use a one-dimensional array with suitable code example.
b) Explain method overloading with suitable example.
c) Explain command line arguments in java with example. (5+5+5)
5. a) Explain constructor overloading with suitable example.
b) Write the general form of a class ? Explain how to define a class in Java with suitable example.
c) Explain any five string methods with suitable example. (5+5+5)

UNIT – III

6. a) Explain multi-level inheritance with suitable example.
b) Illustrate the use of multiple catch statements with suitable example.
c) Explain how to create and use a package in Java with suitable example. (5+5+5)
7. a) Explain exception handling in Java with suitable example.
b) Explain method overriding with suitable example.
c) Explain how to create and implement interface using suitable example. (5+5+5)

-3-

BCACACS 202

UNIT – IV

8. a) Write the complete Applet skeleton with example.
- b) Explain the purpose of JButton and explain any four methods associated with it.
- c) List and explain the components of Delegation Event Model. (5+5+5)
9. a) Explain the use of JTextField and any four methods associated with it.
- b) Explain the process of creating a thread by implementing runnable interface with suitable example.
- c) Write and explain a simple swing application program. (5+5+5)
-
